

*Self Contained Lubricant
Storage & Dispensing Systems*

i10 isoPOD™

The i10 isoPOD™ is a purpose built, portable, plug-&-play lubrication storage and dispensing system designed specifically for internal dispensing of lubricants into small portable containers typically used in the maintenance or top-up of critical assets and on-site machinery.

EXTERNAL DIMENSIONS (mm):
2438W x 2991L x 2896H

STORAGE CAPACITY:
2 x 1000L IBC (4 Max*) or 8 x 205L Drums

DISPENSING CAPACITY:
4 x Internal Anti-Drip Outlets with Spring Return Valves

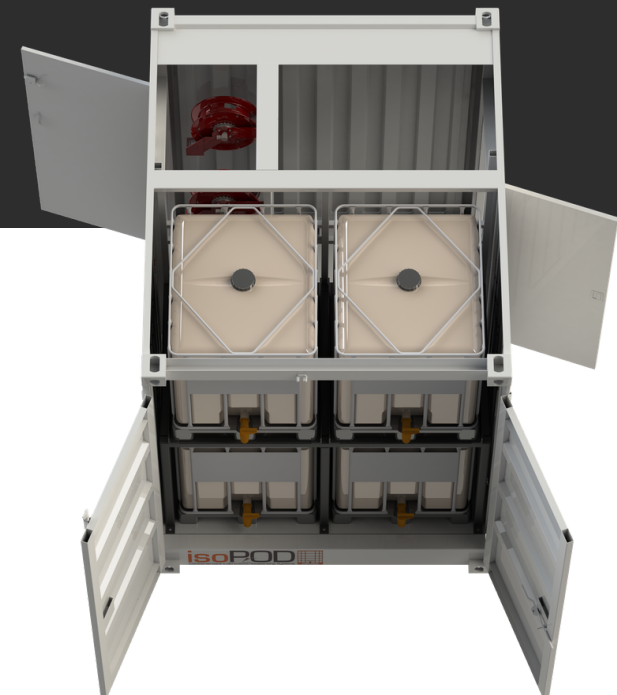

e10 isoPOD™

The e10 isoPOD™ is a purpose built, portable, plug-&-play lubrication storage and dispensing system designed specifically for external dispensing of lubricants directly into critical assets and on-site machinery through the use of the integrated hose reels.

EXTERNAL DIMENSIONS (mm):
2438W x 2991L x 2896H

STORAGE CAPACITY:
2 x 1000L IBC (4 Max*) or 8 x 205L Drums

DISPENSING CAPACITY:
4 x Heavy Duty Hose Reels with Digital Metered Hand Guns

i20 isoPOD™

The i20 isoPOD™ is a purpose built, portable, plug-&-play lubrication storage and dispensing system designed specifically for internal dispensing of lubricants into small portable containers typically used in the maintenance or top-up of critical assets and on-site machinery.

EXTERNAL DIMENSIONS (mm):
2438W x 6058L x 2896H

STORAGE CAPACITY:
5 x 1000L IBC (8 Max*) or 16 x 205L Drum

DISPENSING CAPACITY
8 x Internal Anti-Drip Outlets with Spring Return Valves

e20 isoPOD™

The e20 isoPOD™ is a purpose built, portable, plug-&-play lubrication storage and dispensing system designed specifically for external dispensing of lubricants directly into critical assets and on-site machinery through the use of the integrated hose reels.

EXTERNAL DIMENSIONS (mm):
2438W x 6058L x 2896H

STORAGE CAPACITY (Max):
5 x 1000L IBC (8 Max*) or 16 x 205L Drum

DISPENSING CAPACITY:
8 x Heavy Duty Hose Reels with Digital Metered Hand Guns

Standard Features

- Built in accordance with AS1940-2017
- Oil dispensing from standard 1000L IBC containers or 205L drums
- Grease dispensing from 205L drums
- ISO shipping container lockdown points
- Crane lifting lugs and forklift channels
- Finished in 2-Pak Polyurethane paint - white
- Heavy duty lockable doors
- Premium oil filtration & pneumatic Pumps included
- Filtered ventilation

*Max Capacity exceeds AS1940-2017 Bunding Volume
Delivered product may look different to digital renders
Pneumatic Air Supply not included

Optional Features

- Dispensing bay orientation
- Paint finish colours
- Internal and/or external lighting
- Fitted steel liquid tanks
- Waste oil evacuation systems
- External power connectivity
- Internal power points
- Solar power
- Remote volume level (capacity) metering
- OilSafe® lubricant oil containers

Advantages

- Plug-&-Play solution
- Best Practice lubrication storage & dispensing of lubricants
- Easy transportation
- Secure and controllable access to valuable lubricants
- Fast implementation with minimal site preparation required
- Portability - moves when you need to move or expand your operation
